

The national firm with regional reach, **driving Mexico's industries**

With more than 50 years of experience, we advise national and cross-border operations, with a particular focus on the industrial sector and foreign investment.

We have a direct presence in the country's key industrial regions — where Mexico produces, exports, and grows — advising clients ranging from mid-size companies to Fortune 500 corporations in the automotive, aerospace, manufacturing, infrastructure, energy, logistics, technology, and food and beverage sectors, among others.

We combine sophisticated legal advice with a deep understanding of business operations, allowing us to design efficient solutions aligned with our clients' business needs.

We support our clients in a complex and evolving legal, tax, labor, and regulatory environment, marked by opportunities and challenges such as nearshoring and the reconfiguration of international agreements and global supply chains.

We work in an integrated manner with international firms and count on lawyers trained abroad, allowing us to support our clients' global operations with a vision aligned to international standards.

NATIONAL PRESENCE

- Chihuahua
- Ciudad Juárez
- Mexico City
- Irapuato
- León
- Monterrey
- Puebla
- Querétaro

One of the best qualities of the EC Rubio team is its ability to simplify the complex. They can explain things in a practical way so that everyone can understand them."

Chambers
Latin America 2026

A highly qualified law firm with the skills and experience needed in the local market. Prevention-focused philosophy. They support the creation of the necessary internal structures."

The Legal 500
